Whenever the Director of Public Works or the City Street Commissioner determines that three (3) inches or more of snow, sleet, or freezing rain has accumulated on the designated snow emergency routes, and that a public service announcement to the local media has been issued stating that snow route plowing will begin, a parking prohibition on said routes shall become necessary.

A parking prohibition under this ordinance shall remain in effect until such time as the city plows have completed plowing and/or hauling snow on a particular street designated as a snow emergency route. It is city policy to start plowing snow emergency routes within twelve (12) hours of a snow event ending that creates the emergency situation. While the parking prohibition is in effect, no person shall park, or allow to remain parked, any vehicle or trailer on any portion of the designated snow emergency route. (Ord. No. 327, §§ 1–8, 11-4-2013)
